1. Getting Started

1.1 What is the CORENET X Submission Portal?

- The Submission Portal will replace CORENET 2.0 as the platform to make submissions to agencies for approvals.
- The Submission Portal is a web-based front-facing portal that industry practitioners and their assistants interact with to make submissions.
- It is developed through agile methodology that progressively delivers new features and improvements to enhance the system.
- The system is designed with users at its core, intended for a guided submission process.

## 1.2 Prerequisites

Please check that you have fulfilled the following requirements in order to access the Submission Portal:

- You have a Singpass Account.
- **If you are a Business user representing an organisation (i.e., Developer, Consultant, Builder, etc.), you should log in using Singpass for Business (Corppass).** Your company's [Corppass administrator](#) will need to authorise you to access the e-service 'CORENET X Industry Portal' so that you may access the CORENET X Submission Portal. For more information on Corpass, please visit <https://www.corppass.gov.sg/portal>.

### 1.3 User Roles in the CORENET X Submission Portal

There are two key system roles in CORENET X – the Project Coordinator and the Submission Coordinator.

System Role	Description	Key Responsibilities
Project Coordinator	This role is usually assumed by the overall lead Qualified Person (QP)	<ul style="list-style-type: none"> <li>• Create the project in Submission Portal</li> <li>• Add/remove project members</li> </ul>
Submission Coordinator (for joint submissions only)	This role is assumed by the QP who initiates the joint submission.	<ul style="list-style-type: none"> <li>• Create joint submission, including selecting sections and schemes</li> <li>• Assign project party to respective sections</li> <li>• Initiate declaration for <u>joint submissions</u> (after all project parties have completed respective sections)</li> </ul>

The project members who can be added by the Project Coordinator are listed below. They can also assign assistants who can perform their duties on their behalf.

- Developer (Organisation)
- Developer (Individual)
- Architect
- Professional Engineer (Chemical)
- Professional Engineer (Civil)
- Professional Engineer (Electrical)
- Professional Engineer (Mechanical)
- Fire Safety Engineer
- Registered Surveyor
- Accredited Checker
- Licensed Builder
- Licensed Specialist Builder
- Licensed Plumber
- Specialist Accredited Checker
- Specialist Professional Engineer (Lift and Escalator)
- Specialist Professional Engineer (Geotechnical)
- Registered Inspector (A)
- Registered Inspector (M&E)
- Resident Engineer (C&S)
- Resident Engineer (M&E)
- Resident Technical Officer (C&S)
- Resident Technical Officer (M&E)
- Transport Consultant
- Other member (viewing rights only)

1.4 Understanding the Submission Workflow

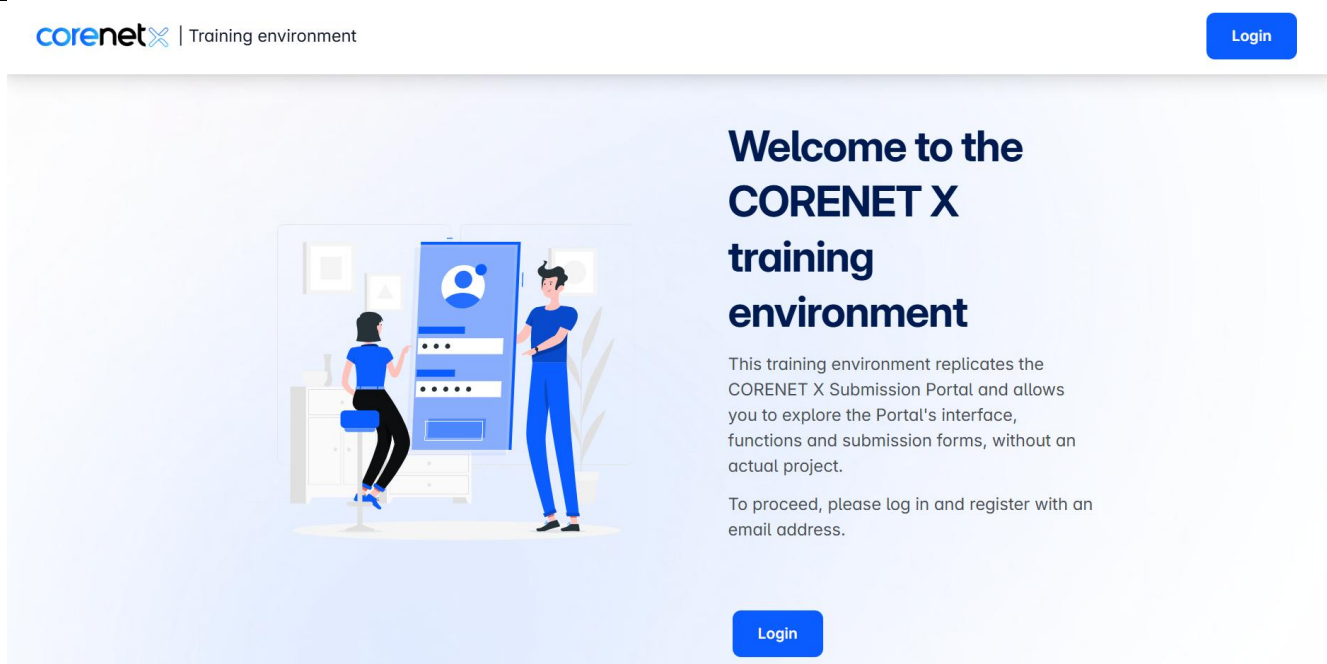

A typical Project Team’s Submission Workflow is shown below. Please refer to the [Code of Practice](#) for more information.

- Note:**
1. At each gateway submission, **payment must be made** and processed in full for agencies to start processing the submission ([refer to Section 13](#))
  2. After each gateway submission:
    - **Track the status of your submission** ([refer to Section 14](#))
    - **Make resubmissions** to respond to Written Direction ([refer to Section 15](#))
    - **Make amendment submissions** after clearance if needed ([refer to Section 16](#))
  3. **Apply for waivers** ([refer to Section 19](#))

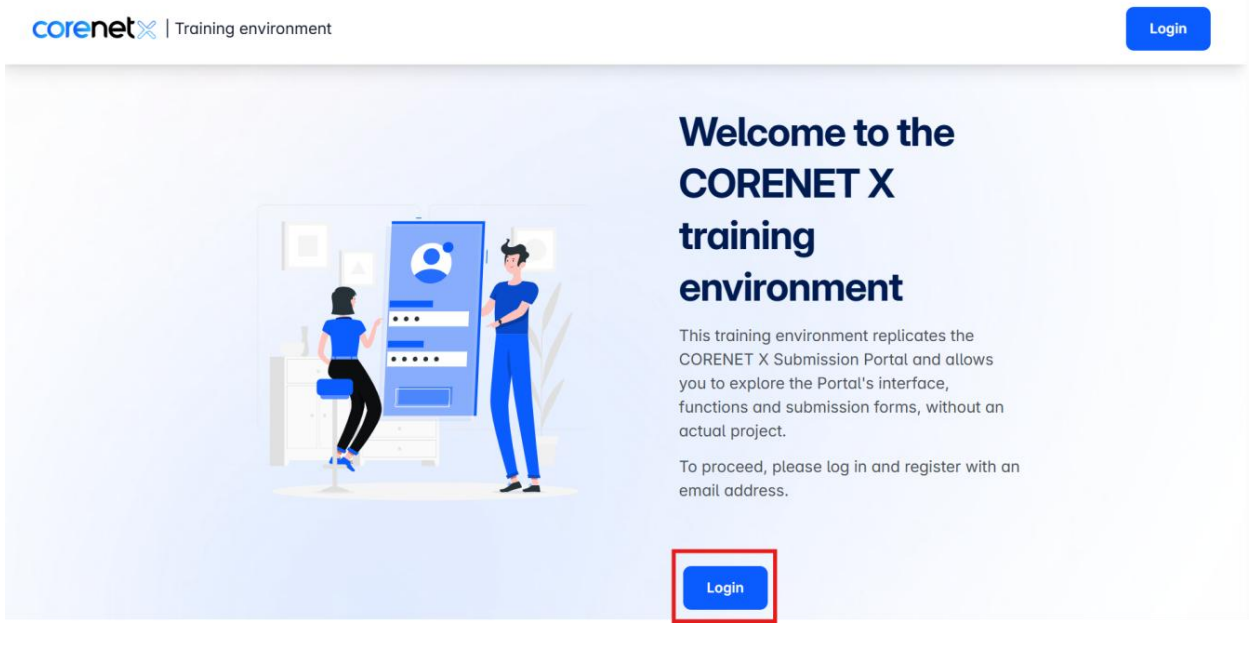

2. Training Environment

2.1 What is the Training Environment?

 <p>corenetX   Training environment <span>Login</span></p> <h2>Welcome to the CORENET X training environment</h2> <p>This training environment replicates the CORENET X Submission Portal and allows you to explore the Portal's interface, functions and submission forms, without an actual project.</p> <p>To proceed, please log in and register with an email address.</p> <p><span>Login</span></p>	<p><b>All users are strongly encouraged to try out the training environment before making a formal submission.</b></p> <p>The training environment replicates the CORENET X Submission Portal and allows you to explore the Portal's interface, functions and submission forms, before you make a formal submission.</p> <p>Everyone may access the training environment at <a href="https://training.corenet.gov.sg/">https://training.corenet.gov.sg/</a>. Click <a href="#">here</a> to access our guide to the training environment.</p> <p><b>Note:</b> Please note that the training environment is intended for function exploration and process familiarization, not for real project submissions. Some features may be unavailable.</p>

----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

### Log in to CORENET X training environment

CORENET X training environment allows you to explore the portal's latest features and functions, without using an actual project and project team.

Email

OTP

3. Key in the email address you have provided during registration.
4. An OTP will be sent to your email address.
5. Key in the OTP and click on "Verify and log in".

**Welcome**

This training environment mirrors the CORENET X Submission Portal and is set up to allow our industry users to explore the new functions and process, even without an actual project.

[View conditions and limitations of training environment](#)

**Access CORENET X training environment using the generated profile(s)**  
 Default profiles are generated below to allow you to access and to simulate the submission process. Please select the desired profile you wish to access the environment as by selecting "Use profile".

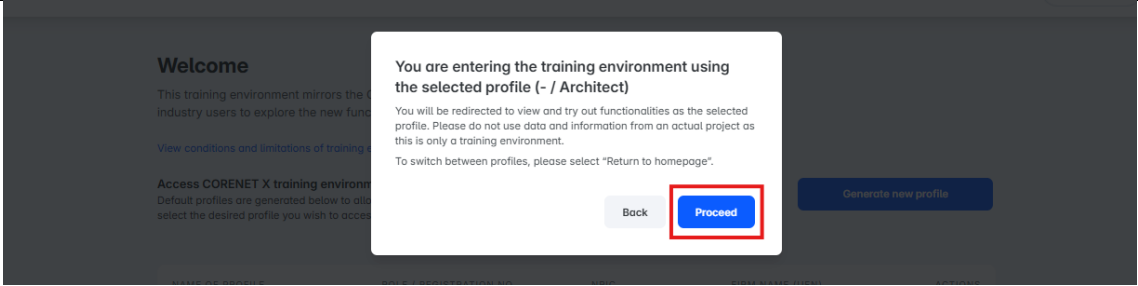

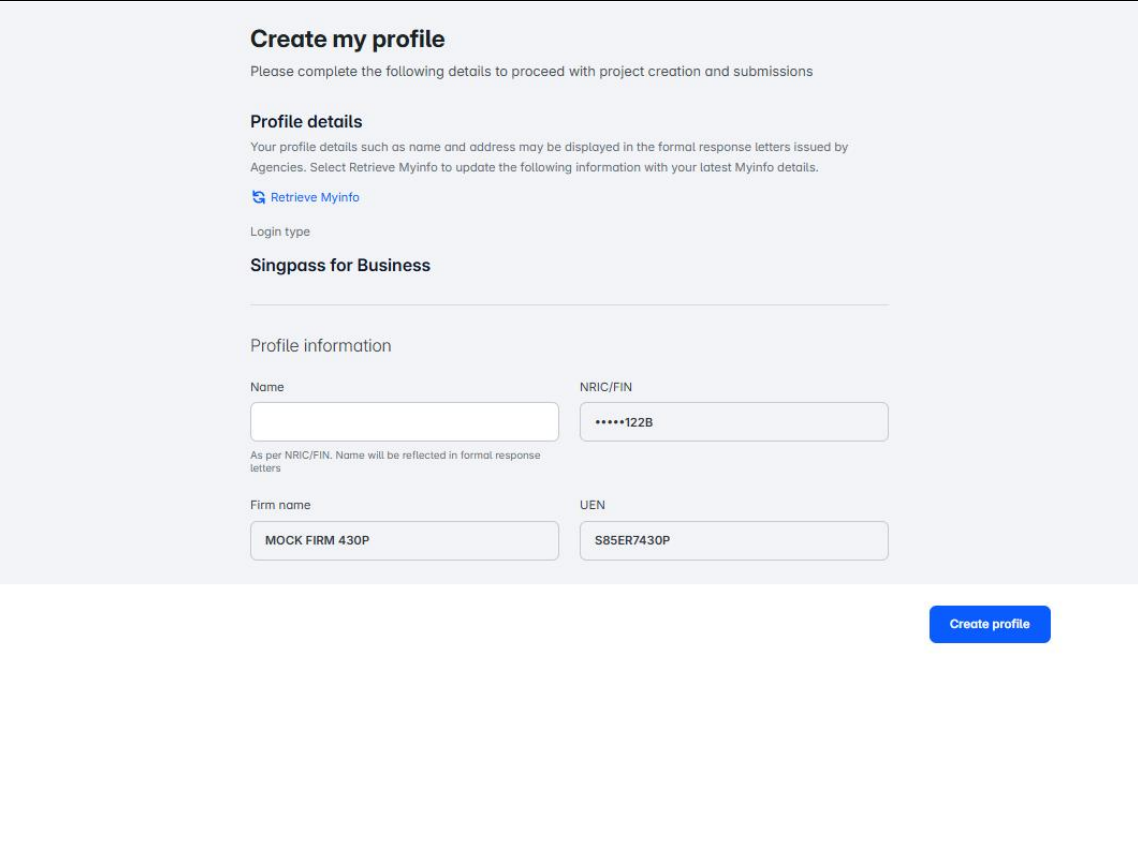

[Generate new profile](#)

NAME OF PROFILE	ROLE / REGISTRATION NO.	NRIC	FIRM NAME (UEN)	ACTIONS
Archie Teng	<b>Architect</b> A0912 (BOA)	S1790912W	<b>MOCK FIRM 430P</b> S85ER7430P	<a href="#">Use Profile</a>
Eugene Chia	<b>Professional Engineer (Civil)</b> E8431 (PEB)	S1768431R	<b>MOCK FIRM 430P</b> S85ER7430P	<a href="#">Use Profile</a>
Deven Tan	<b>Developer (Organisation)</b> <b>(Main acting personnel)</b> -	S9579117V	<b>MOCK FIRM 430P</b> S85ER7430P	<a href="#">Use Profile</a>
Bob Chin	<b>Licensed Builder (Technical Controller) / Licensed Builder (Approved Person)</b> GB6271 (BLS)	S7716271B	<b>MOCK FIRM 430P</b> S85ER7430P	<a href="#">Use Profile</a>

If you are logging in for the first time, the names will not be populated yet. For example:

Not available (Name will be updated once profile is used in the environment)	<b>Architect</b> A4122 (BOA)	S4784122B	<b>MOCK FIRM 430P</b> S85ER7430P	<a href="#">Use Profile</a>
------------------------------------------------------------------------------	---------------------------------	-----------	-------------------------------------	-----------------------------

6. Upon receiving the OTP and successfully logging in, you will see the training environment interface.
7. If you are logging in for the first time, you will see a few mock profiles such as Architect, Professional Engineer and Builder.
8. You may try out the different profiles by clicking on "use profile".
9. You may also generate new profiles for other project parties (e.g., Fire Safety Engineer, Resident Engineer) by clicking on "Generate new profile".

	<p>10. After clicking on “use profile”, a pop-up window will appear to inform that you are entering the training environment with the selected profile.</p> <p>11. Click on “Proceed”.</p>
	<p>12. If you have selected the mock profile for the first time, you will be prompted to create a mock profile. This page mirrors the process of setting up your profile in the actual Submission Portal (see <a href="#">Section 3.3</a>).</p> <p>13. After filling in this form, you may complete setting up the mock profile by clicking on “Create profile”.</p> <p><b>Tip:</b> Users are recommended to create profiles for different project roles to try out the different functionalities.</p> <p>14. You may refer to the recording of our webinar in the Training Environment <a href="#">here</a>.</p>

3. Login to Submission Portal

3.1 Login as Business User via Singpass for Business

All users are required to login to the CORENET X Submission Portal via Singpass: <https://portal.corenet.gov.sg/>.

Developers and licensed builders are required to log in through Singpass for Business. It is strongly encouraged for all other project members to do the same unless they are providing services in a personal capacity.

1. Click on the “Login via Singpass” button.

**Note:** Do ensure all project members using SingPass for Business are authorised to access the Submission Portal (refer to [Section 1.2](#) for steps to set up Singpass for Business).

**Log in with Singpass to access CORENET X**

Developer (organisation), Licensed Builders, Qualified Persons, registered/licensed professionals representing companies should be Corppass-registered and log in as business.

[How do I apply for Singpass Business?](#)

Page 1 of 1

- Click on “Log in as Business”.
- Click on “Log in as Business”.
- For users registered under multiple CorpPass entities, you will be prompted to select the appropriate company on whose behalf you are logging in. Ensure that you choose the correct company to make or assist with submissions.

3.2 Login as Individual User via Singpass

	<p>1. Click on the “Login via Singpass” button.</p>
	<p>2. If you are logging in as an individual (e.g., individual developer), please click on “Log in as an individual”</p>

3.3 Creating Your Profile (First-Time Login)

<p><b>Create my profile</b></p> <p>Please complete the following details to proceed with project creation and submissions</p> <p><b>Profile details</b></p> <p>Your profile details such as name and address may be displayed in the formal response letters issued by Agencies. Select Retrieve Myinfo to update the following information with your latest Myinfo details.</p> <p><a href="#">Retrieve Myinfo</a></p> <p>Login type</p> <p><b>Singpass for Individual</b></p> <hr/> <p>Profile information</p> <table> <tr> <td>Name</td> <td>NRIC/FIN</td> </tr> <tr> <td><input type="text"/></td> <td><input type="text" value="*****567A"/></td> </tr> </table> <p><small>As per NRIC/FIN. Name will be reflected in formal response letters</small></p> <p>Designation (optional)</p> <p><input type="text"/></p> <hr/>	Name	NRIC/FIN	<input type="text"/>	<input type="text" value="*****567A"/>	<p><b>Creating your profile (action by new users)</b></p> <ol style="list-style-type: none"> <li>1. If you are logging in for the first time, you will be brought to the “Create my profile” page to create a profile.</li> <li>2. You are encouraged to select “Retrieve Myinfo” to ensure the most accurate details are extracted in your preparation for submission.</li> <li>3. Your particulars will be auto populated.</li> </ol>
Name	NRIC/FIN				
<input type="text"/>	<input type="text" value="*****567A"/>				

## Create my profile

Please complete the following details to proceed with project creation and submissions

### Profile details

Your profile details such as name and address may be displayed in the formal response letters issued by Agencies. Select Retrieve Myinfo to update the following information with your latest Myinfo details.

Login type

### Singpass for Individual

#### Profile information

Use Myinfo email as my primary email

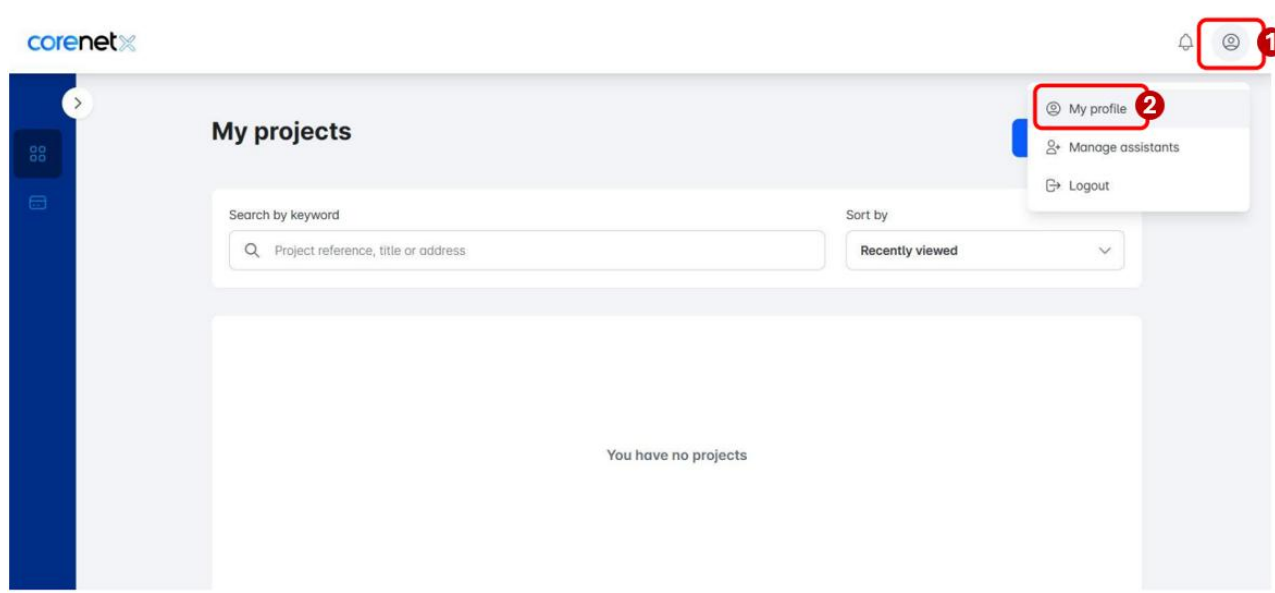

[Create profile](#)

4. You may specify your preferred primary email address to receive notifications for your projects.

**Tip:** If you have a project-specific email address, you may customise through your project member details within the specific project workspace. This can only be done by the individual users. If no project-specific email address is specified, the project notifications will be sent to the primary email address.

5. After filling in all the details, click on “Create profile” to finish setting up your profile.

3.4 Updating Your Profile

The screenshot displays the 'My projects' workspace in the corenetX application. The page title is 'My projects'. Below the title, there is a search bar labeled 'Search by keyword' with the placeholder text 'Project reference, title or address'. To the right of the search bar is a 'Sort by' dropdown menu currently set to 'Recently viewed'. The main content area is empty, displaying the message 'You have no projects'. In the top right corner, there is a notification bell icon and a user profile icon. A dropdown menu is open from the user profile icon, showing three options: 'My profile', 'Manage assistants', and 'Logout'. Red boxes and numbers highlight the user profile icon (1) and the 'My profile' option (2).

1. Users may update their profile details any time after creating their profile.
2. Go to the “My projects” workspace. Your projects will be shown here.
3. Click on the top right icon and click on “My profile” to access your profile page.
4. You may proceed to update your profile details.

### 3.5 Managing System Notifications

<p>Address</p> <p>Postal code</p> <p><input type="text"/> <a href="#">Retrieve</a></p> <p>e.g. 650539</p> <p>Building name</p> <p><input type="text" value="Please select"/> ▾</p> <p>Road name</p> <p><input type="text"/></p> <p>House/Block no. <input type="text"/> Level no. (optional) <input type="text"/> Unit no. (optional) <input type="text"/></p> <hr/> <p><b>Receive notifications via</b></p> <p>Primary email</p> <p><input type="text"/></p> <p><input type="checkbox"/> Use Myinfo email as my primary email</p>	<ol style="list-style-type: none"><li>1. The primary email is where system notifications will be sent.</li><li>2. Go to your profile page by following the steps in <a href="#">Section 3.4</a>.</li></ol>
------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

The screenshot displays the corenetX user interface. At the top left is the corenetX logo. A security warning banner reads: "Government officials will NEVER ask you to transfer money or disclose bank log-in details over a phone call. Call the 24/7 ScamShield Helpline at 1799 or visit www.scamshield.gov.sg". Below this, a "Welcome back!" message states "Last updated 17 January 2026, 11:42am". A section titled "Your actions required" with a "View all (18)" link contains three cards: "Submit application" (Project: Submission of documents, Pending for 793 day(s)), "Complete payment to proceed" (Project: Waiver/non-compliance (ES20240304), Pending for 684 day(s)), and another "Complete payment to proceed" card (Project: Waiver/non-compliance (ES20240304), Pending for 682 day(s)). A "Notifications" dropdown menu is open on the right, listing: "Amendment to Plan application (Construction Gateway) ES20240320- has been created" (22 days ago, View submission), "Plan application (Construction Gateway) has been deleted for project A" (22 days ago), "Plan application (Design Gateway) has been deleted for project" (22 days ago), and "Mandatory water efficiency requirements has been removed for" (with a scroll bar and "See all notifications" link).

3. Notifications are also accessible through the bell icon, which collates the items that are pending your action e.g. declaration, appointment which you may access directly through the link provided

4. Navigating the Submission Dashboard (First-Time Login)

	<p><b>Home Page – “Welcome back!” Page</b></p> <ol style="list-style-type: none"> <li>1. If you are logging in for the first time and have created your profile, you will be directed to the home page.</li> <li>2. This will be the default landing page that you will be directed to when you login subsequently.</li> <li>3. The homepage shows all the outstanding items requiring your attention, across all projects you are involved in.</li> </ol>
--	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

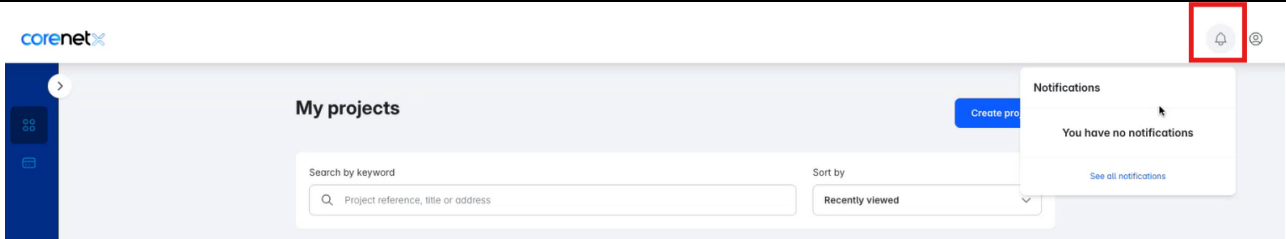

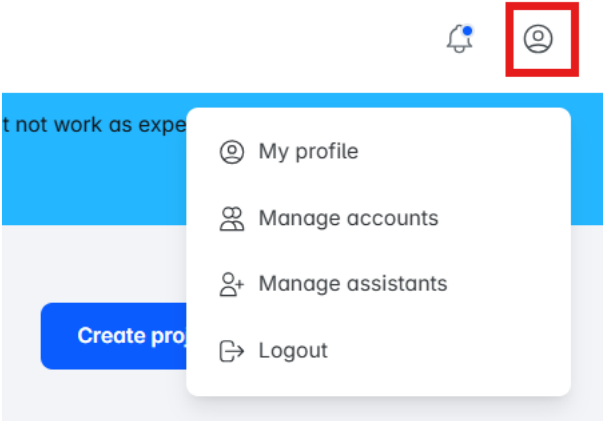

**“My projects” page**

4. You can also navigate to the “My projects” page by clicking on the second icon on the bar on the left-hand side.
5. This page will list all of your projects in CORENET X.

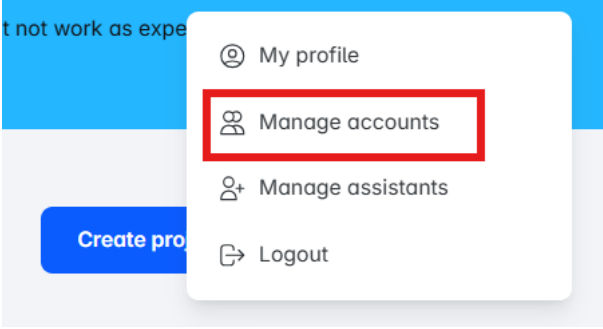

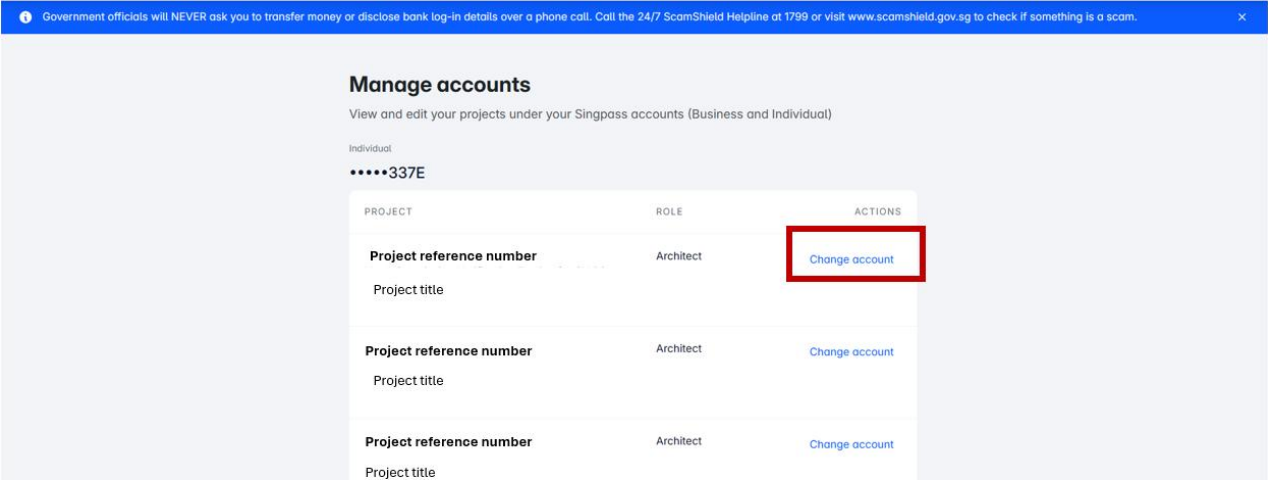

**“My payments” page**

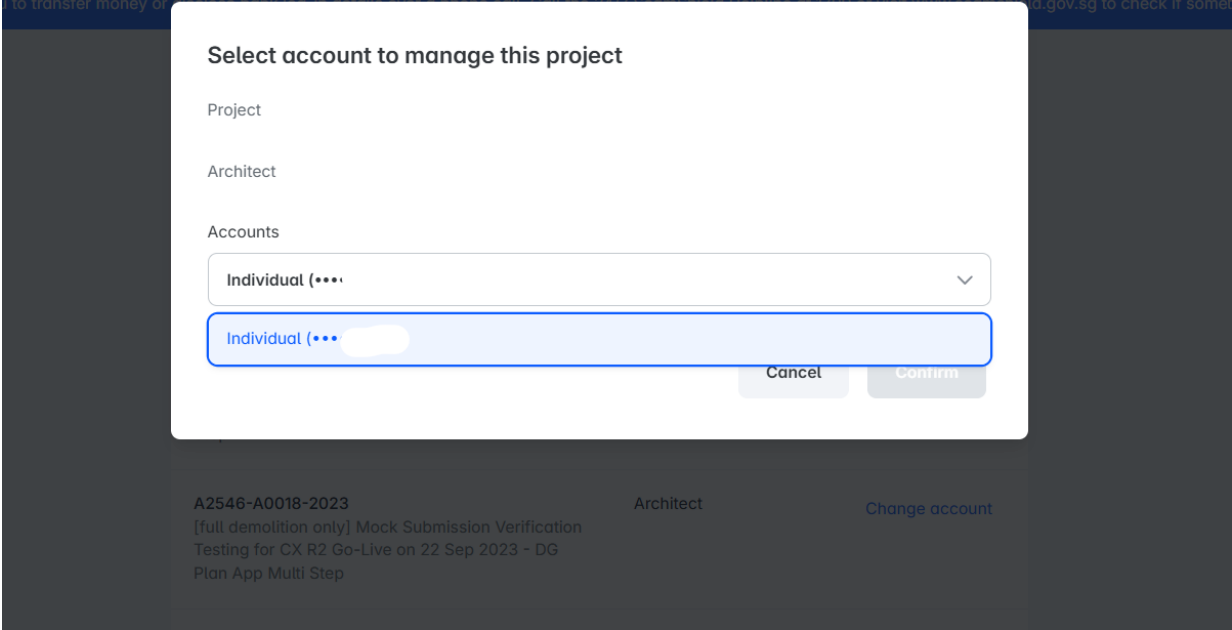

6. You can also navigate to the “My payments” page by clicking on the second icon on the bar on the left-hand side.
7. This page allows you to search and make payment for a submission.

	<p><b>Checking Notifications</b></p> <p>8. Click on the bell icon to check if you have any latest notifications.</p>
	<p><b>Managing your profile, managing your accounts, managing assistants &amp; logging out</b></p> <p>9. To update your profile, manage project accounts, add or remove assistants, or logout, click on the face icon on the top right corner of the webpage.</p> <p>10. Select the appropriate button.</p>

**5. Managing Accounts**

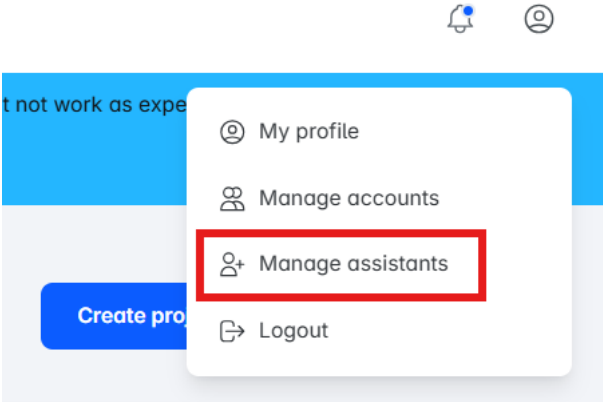

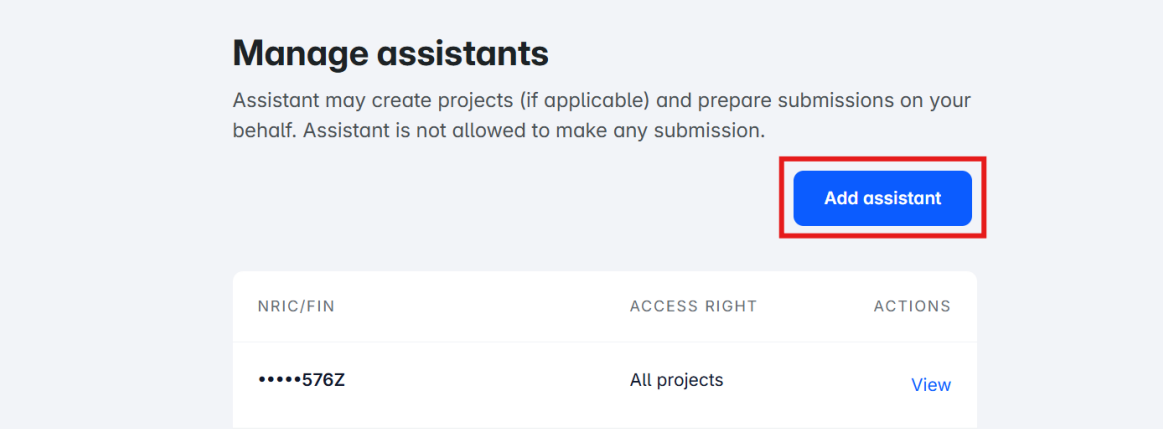

Users can manage accounts tied to their projects, to toggle between Singpass for Individual and Singpass for Business, or between different Singpass for Business UENs. This applies to all roles except Developer (Organisation), Licensed Builder, and Licensed Specialist Builder, and only where the user is not involved in any submission in the project.

	<p>1. Under “My projects”, click on the top right icon and click on “Manage accounts”.</p>
	<p>2. Users will be able to manage switch their account type (Singpass as individual or Singpass as Business, or choose which Singpass for Business to use) for each project</p> <p>3. All users should use Singpass as Business unless acting in your individual capacity as a registered QP, or as an individual owner (Developer individual).</p>

## 7. Creating a New Project

The screenshot shows the 'My projects' interface. At the top right, there is a blue 'Create project' button highlighted with a red rectangular box. Below the header, there is a search bar labeled 'Search by keyword' with the placeholder text 'Project reference, title or address' and a 'Sort by' dropdown menu currently set to 'Recently viewed'. The main content area is empty and contains the text 'You have no projects'.

1. After logging in, click on “Create project”.

**Note:** Only Qualified Persons (QPs) or assistants of QPs can create a project.

The screenshot shows a multi-step process for creating a project. At the top, a progress bar indicates five steps: 1. Create project for whom, 2. Fill in project details, 3. Indicate project address, 4. Indicate type of project, and 5. Review information. Step 1 is currently active. Below the progress bar, the heading 'Create project' is followed by the instruction 'Select the following options to start the project creation process'. Two options are presented: 'For myself' (Qualified Person creating project for themselves) with a checked checkbox, and 'For others' (Assistant creating on behalf of the Qualified Person) with an unchecked checkbox. A link for help is provided below the options. At the bottom right, there are 'Cancel' and 'Next' buttons, with 'Next' being the active button.

2. You have two options:
  - Create a project for yourself (if you are the project coordinator) OR
  - Create a project for others (if you are an assistant).
3. After you have selected the correct option, click “Next”.

1 ————— 2 ————— 3 ————— 4 ————— 5 —————  
 Create project for whom    Fill in project details    Indicate project address    Indicate type of project    Review information

### Project details

Project coordinator  
**Architect 1** Architect

Development type    Building works  
 Commercial    New erection (including recons...)

For developments with more than 1 development type, select the predominant use. Otherwise, select Mixed Development.

 Proposed new erection of...

[Find out more about development type](#)

← Back    Cancel    Next

**Input Project Details**

4. You will take on the role of “Project Coordinator” in the system.
5. Fill in your project details.
6. Indicate the type of development and building works by selecting the appropriate option.

**Note:** This selection determines the project submission process, either Direct Submission Process (DSP) or the Gateway Process.

**Tip:** Click on “Find out more about development type” to know which typology your development falls under.

7. Input your project title. This title is editable even

	<p>after the project is created.</p> <p>8. Click on “Next” to enter your project address.</p>
--	-----------------------------------------------------------------------------------------------

### Indicate project address

Fill in the applicable project address format(s)

i For project where there is no MK/TS lot no., please provide the site description or formatted address (if applicable)

Mukim/Town Subdivision/Lot no.

Does your project have MK/TS lot no.?

Yes  No

---

Formatted address

Postal code

Retrieve

e.g. 650539

Building name

Please select
▼

Road name

House/Block no.

Level no. (optional)

Unit no. (optional)

+ Add additional formatted address

---

Site description

i Provide road name(s) and site description if applicable

Road name(s)

🔍

Maximum of 4 roads

Site description 0/1000

Next

### Indicate Project Address

9. Fill in the project details.

**Note:**

- All projects should have a Mukim/TS lot number. If your project does not have one, you may click “no”. This only applies to special projects where land lot numbers have yet to be allocated by SLA.
- For the formatted address, key in the postal code and click on “retrieve” to auto-populate your address details.
- If you lack a specific project address, you can select a site description with a simple name.

10. Click on “Next”.

<p><b>Indicate type of project</b></p> <p>The type of project (GPE or non-GPE) is set at project creation and cannot be changed later</p> <p>Type of project</p> <p>Is this a <a href="#">Government Procurement Entity (GPE)</a> project (i.e. does it involve a GPE developer/owner)?</p> <p><input type="radio"/> Yes <input checked="" type="radio"/> No</p> <div style="border: 1px solid #ccc; padding: 5px; margin-top: 10px;"> <p><b>i</b> Once a project is created as a non-GPE project, you will not be able to add GPE developer/owners as members. ### Review information

Please ensure that the following information indicated is accurate, information will still be editable after project creation

Project submission process for project

#### Gateway submission process

[? What are the different project submission process?](#)

Project Coordinator details	
Name	Archie Teng
Role	Architect
Registration no.	A0912
Firm name	MOCK FIRM 430P
UEN	S85ER7430P

Project details	
Development type	Healthcare
Building works	New erection (including reconstruction)
Project title	New erection of healthcare institution (sample)

← Back
Cancel
Create project

### Review Information

14. Review all information, including the development type and building works as this will determine whether your project falls under the Gateway Process or Direct Submission Process.

15. Ensure that the project coordinator’s information is correct as well.

16. After verifying the information, click on “Create Project”.

My projects > Project overview (AA0912-A0392-2025)

### Project overview

Created by Archie Teng on 2 December 2025

PROJECT REFERENCE NO.  
AA0912-A0392-2025

Gateway submission process

**Your first steps as Project Coordinator**

Follow this guide to add members and appoint them for submissions

- Create project
- Add project members [Add](#)
- Send appointment request to developer/builder [Send](#)
- Get appointed for relevant scope of works [View](#)

**Submission workspace**  
Prepare project submissions

**Project members**  
View and add members

**Member appointments**  
Appoint members for relevant scopes of works

**Make payment**  
Add and pay for multiple payments

**Site inspection booking**  
Create and manage bookings

**Submission milestone dashboard**

Keep track of the progress of your joint submissions. For all other applications, please view them in the submission workspace.

SUBMISSIONS	SUBMISSION STAGE	WD OUTSTANDING	ACTIONS
<b>Plan application</b> Design gateway	Not started	-	
<b>Plan application</b> Piling gateway (Optional)	Not started	-	
<b>Plan application</b> Construction gateway	Not started	-	
<b>Completion</b> TOP/CSC clearance	Not started	-	<a href="#">View TOP/CSC requirements</a>

### Project Overview

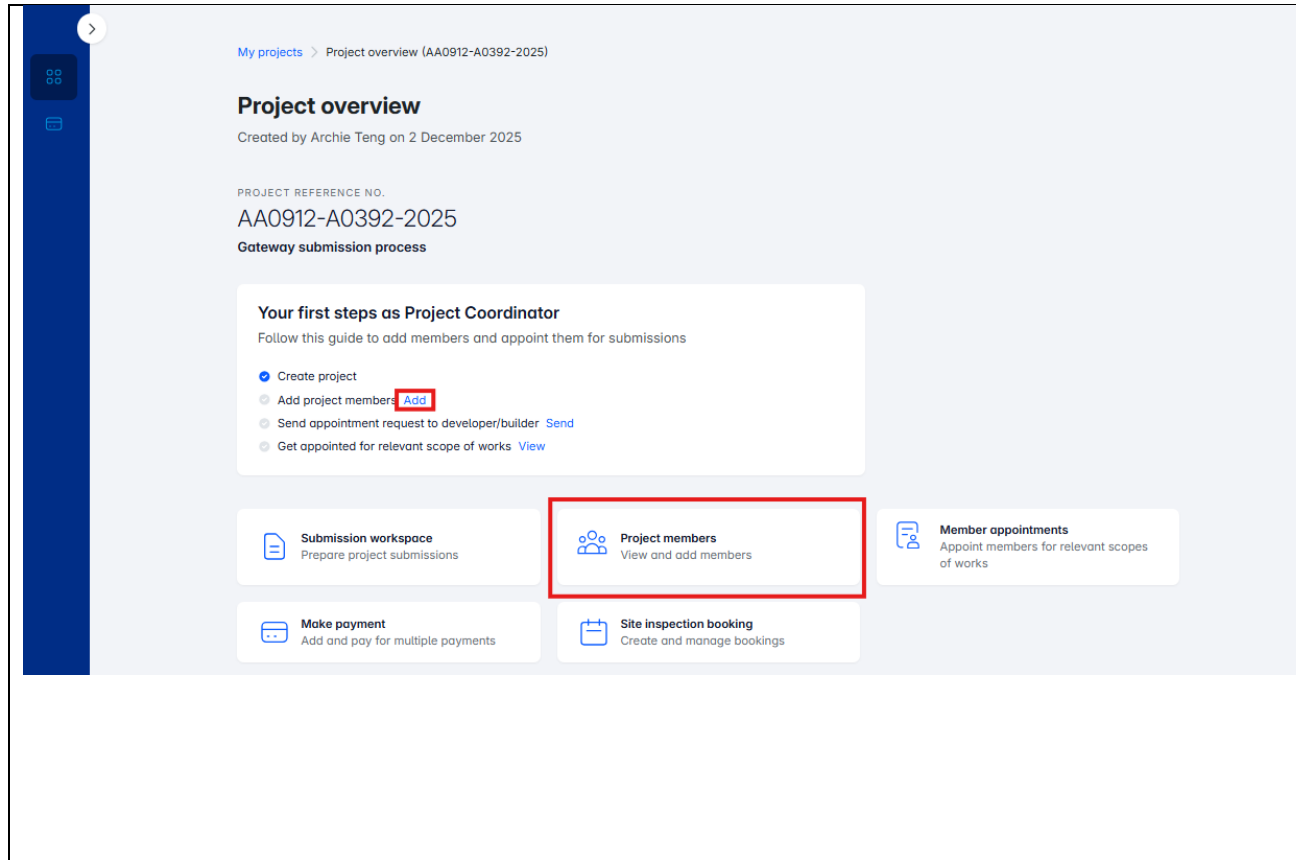

17. The project is now created.

18. **A project reference number is automatically generated by the system.** There is no need for manual input of project reference number which is currently the case in CORENET 2.0.

19. You may now proceed to add project members – follow the steps in [Section 8](#).

## 8. Managing your Project Team

### 8.1 Adding Team Members

#### Adding Members (action by Project Coordinator or Project Coordinator Assistant)

1. Go to the “Project overview” page.
2. Click on the “Project Members” button.

**Note:** Only project coordinators or their assistants can add and remove members.

**Tip:** Alternatively, if no members have been added yet (as per this screenshot), you can click on “Add” beside the “Add project member” milestone.

### Project members

**Steps required before project members can create, edit and declare for submissions**

The appointment process ensures correct access to the respective parts of the submission

- 1 **Add member**  
Project Coordinator to add members to the project and assign them roles
- 2 **Add responsibilities**  
Project Coordinator to add responsibilities to assign members (e.g.: other QPs) to relevant scopes of works or agency submissions
- 3 **Appoint member**  
Project Coordinator to consolidate all pending appointments and send an appointment request to the developer or builder

[Go to member appointments](#)

List of project members

▼	NAME	ROLE	STATUS	ACTIONS
▼	<b>Archie Teng</b> 912W	Architect (Project coordinator)	Pending responsibility	<a href="#">Add responsibility</a>   <a href="#">View</a>

Add member

3. You will be able to view the list of project members that you have added.
4. To add a new member, click on “Add member”.

### Add member

Search for an existing member that the Project Coordinator has added before in other projects. Alternatively, you can add a new member manually.

[Add new member manually](#)

Note: W.ef. 1 Jun 2026, full NRIC will be used.

### Add member details

A notification email will be sent to the added project member. Additional information will be retrieved from the member's Myinfo data upon their authorisation.

**Roles**

Role: Professional Engineer (Civil)   

[+ Add additional role](#)

---

**Member details**

Name: pecivil NRIC/FIN: 000E  
Last 4 alphanumeric characters (example: 567A)

Email: pecivil@test.com

Note: W.ef. 1 Jun 2026, full NRIC will be used.

**(3) Adding a Qualified Person**

13. To add a QP, select their role from the list and enter their registration number (for QPs).

14. Input the email address of the QP. **Ensure this email is accurate as your request to add the member will be sent to this email address and the member must accept this request through email.**

15. A green tick indicates that the added professional has a valid licence under the relevant Board/Registry.

16. Input the member's name as per /FIN, their NRIC/FIN and email address. This name is important as it will be **reflected in the approval letters issued by agencies.**

17. Click on "Add member".

List of project members [Add member](#)

NAME	ROLE	STATUS	ACTIONS
Archie Teng	Architect (Project coordinator)	Pending responsibility	<a href="#">Add responsibility</a>   <a href="#">View</a>
Eugene Chia	Professional Engineer (Civil)	Email invite sent	<a href="#">Resend email invitation</a>   <a href="#">View</a>

Email sent to added project member to confirm their addition to the project team:

**Eugene Chia , you have been added to project AA0912-A0392-2025**

You have been added to this project by the project coordinator or his/her assistant. To access the project, please confirm your addition to the project.

If you are a business user, please login using Singpass Business for your firm.

Upon confirmation, you will be formally added to the project in CORENET X and could view the project details.

[Confirm addition](#)

18. Follow the same steps above to add other project personnel.
19. Once you have added the new member, an email will be sent to the new member's specified email address.
20. **Please inform the new member to accept the email invitation.** The new member needs to click on "confirm addition" button in the email invite. Until then, their status will be reflected as "email invite sent".

List of project members [Add member](#)

NAME	ROLE	STATUS	ACTIONS
Archie Teng	Architect (Project coordinator)	Pending responsibility	<a href="#">Add responsibility</a>   <a href="#">View</a>
Eugene Chia	Professional Engineer (Civil)	Pending responsibility	<a href="#">Add responsibility</a>   <a href="#">View</a>
MOCK FIRM 430P	Developer (Organisation)	Added	<a href="#">View firm information</a>

21. Once the new member has accepted the email invitation, their status will be updated accordingly.

- When a Developer accepts the invitation, his status will be updated to “Added”.
- When a Qualified Person has accepted the invitation, his status will be updated to “Pending responsibility”.

22. **For members whose status are reflected as “pending responsibility”, you will need to assign responsibility** – refer to [Section 9](#) for the steps.

8.2 Removing Team Members

ROLE  
**Architect**  
 Registration no. A0912

**Building and Construction Authority (BCA)**  [Edit](#)

RESPONSIBILITY  
 Building Plan submissions and supervision of building works in accordance to the Building Control Act 1989 and its Regulations

Appointed

[Show details](#)

**Actions**  
[Edit roles](#)  
[Manage appointment requests](#)  
[Edit additional member details](#)  
Leave and replace

1. Project coordinators (PC) can leave and replace themselves if needed.
  2. Go the “project members” page and “view” the project coordinator’s member information.
  3. Click on “Leave and replace”.
- Note:**
- A PC cannot leave without a replacement.
  - The replacement of PC may only proceed with authorisation by the developer or builder (whoever appointed the PC).
  - When this replacement is confirmed, the PC and PC assistants' access to this project will be removed after 10 working days.

8.4 Managing Developer Personnel

My projects > Project overview (AA0912-A0371-2025) > Project members

### Project members

**Steps required before project members can create, edit and declare for submissions**

The appointment process ensures correct access to the respective parts of the submission

- 1 **Add member**  
Project Coordinator to add members to the project and assign them roles
- 2 **Add responsibilities**  
Project Coordinator to add responsibilities to assign members (e.g.: other QPs) to relevant scopes of works or agency submissions
- 3 **Appoint member**  
Project Coordinator to consolidate all pending appointments and send an appointment request to the developer or builder

### Replacing main / secondary personnel

8. Click the “Replace” button beside the name of the personnel to be replaced.
9. On the next page, select the personnel to be replaced.
10. Review replacement details and click “next” to confirm.

**Note:** If the added personnel is currently not part of the project, he / she will be required to accept addition to the project to complete the replacement process. Until then, the personnel who is replaced will still be allowed to access the project functions.

## 9. Assigning Responsibilities and Appointing Team Members

### 9.1 Assign responsibilities to Team Members

My projects > Project overview (AA0912-A0392-2025) > Project members

### Project members

**Steps required before project members can create, edit and declare for submissions**

The appointment process ensures correct access to the respective parts of the submission

- 1 Add member**  
Project Coordinator to add members to the project and assign them roles
- 2 Add responsibilities**  
Project Coordinator to add responsibilities to assign members (e.g.: other QPs) to relevant scopes of works or agency submissions
- 3 Appoint member**  
Project Coordinator to consolidate all pending appointments and send an appointment request to the developer or builder

[Go to member appointments](#)

List of project members Add member

▼	NAME	ROLE	STATUS	ACTIONS
▼	Archie Teng	Architect (Project coordinator)	Pending responsibility	<a href="#">Add responsibility</a>   <a href="#">View</a>
▼	Eugene Chia	Professional Engineer (Civil)	Pending responsibility	<span style="border: 2px solid red; padding: 2px;">Add responsibility</span>   <a href="#">View</a>
▼	MOCK FIRM 430P	Developer (Organisation)	Added	<a href="#">View firm information</a>

1. For members whose statuses are shown as “pending responsibility”, you will need to assign them their responsibilities.

**Note:** This will determine the type of submissions the respective member is responsible for. With this, only the competent QP of the acceptable discipline will be able to create and submit for the specific submission e.g. Only a PE (Civil) appointed for BCA’s Structural submissions will be able to create and submit for the ST submission.

2. Go to the “Project members” page.

3. Click on “Add responsibility”.

### Project responsibilities

All statutory responsibilities added must be appointed by the developer (or licensed builder, as defined by the relevant Acts and Regulations). The appointed Qualified Person (QP) will then be responsible for the relevant aspects of the submission.

[View roles and responsibilities of project members](#) 

Role

**Professional Engineer (Civil)**

Registration no. E8431

Select scope of responsibilities for agency

Select agency 

- Building and Construction Authority (BCA)
- Land Transport Authority (LTA)
- National Environment Agency (NEA)
- National Parks Board (NParks)
- Public Utilities Board (PUB)

4. For each Qualified Person/Professional, select their responsibilities under the specified agencies.

5. You may refer to [this link](#) for the roles and responsibilities each project member may undertake.

**Note:** The CORENET X system has digitalised the appointment process, eliminating the traditional appointment process done on paper.

<p><b>Project responsibilities</b></p> <p>All statutory responsibilities added must be appointed by the developer (or licensed builder, as defined by the relevant Acts and Regulations). ### Create submission

Please read the below instructions before proceeding.

**Submission details**

Submission	Pre-submission consultation on agency specific requirements
Agency	Building & Construction Authority (BCA)
Agency Category	Building design

**Instructions**

This pre-submission consultation item(s) will be made to the agency(s) for the aspects which you have shown above.

Once you proceed, only you and your assistant (if any) will be allowed access to edit and submit this application.

Please note that once a response has been issued by the agency(s), a new application is required if you wish to follow up or supplement details on any issues.

8. Review submission details and click “Create”.

**Note:** Only the submission coordinator and his or her assistant can edit and submit this submission.

## Create submission

Please read the below instructions before proceeding.

### Submission details

Submission	Full demolition application
------------	-----------------------------

### Instructions

This is an application for the demolition of an entire building. For partial demolition, please apply through plan application as part of your proposed new works.

This submission requires the appointed project parties to jointly prepare and submit the application to all regulatory agencies in a single submission.

To ensure smooth application, please ensure all relevant QPs have been appointed by the developer/builder (where applicable) as only appointed project parties may edit the relevant section(s). As the overall coordinator for this submission, the submission coordinator will need to ensure that the joint submission is ready before the system prompts the respective QPs for their declaration(s).

Please take note that the submission will only be considered accepted after payment is made.

APPOINTED PROJECT PARTY

**Brian Phua**

Professional Engineer (Civil)

**Input Building Control section  
(action by QP appointed for BCA  
structural works  
responsibilities for demolition)**

17. Complete the form.

11.2 Review Computation of Fees

**Fee computation**  
Review payable plan processing fees with breakdown by agency

TOTAL PAYABLE FEE  
**SGD 400.00**

Cost breakdown by agency

**AGENCY**  
Building and Construction Authority (BCA)

**APPLICATION FEE**  
Full demolition application 400.00  
Total no. of storey(s) to be demolished: 2 storey

Subtotal 400.00

Total plan fee payable (SGD) 400.00

**Review Fees for Demolition Application**

1. Select the “Fee computation” tab.

**Note:** All project members including developers can view the expected plan fee payment. Please note that the fees will be updated as the QPs fill in the form in the various subsections. The final accurate fee will be displayed when all the related fields are filled in under the “ready to review” mode.

2. When the submission has been declared and is in “pending payment” stage, the entry point for fees payable to each agency will be shown in the submission workspace Payment is to be made to each individual agency separately.

11.3 Making Declarations

**Plans**

Plans reflected here are provided by the appointed project parties for the applicable sections when section is ready for review.

Planning parameters

- [View submission activity](#)
- [Delete submission](#)

- The status of the submission in the “Submission Workspace” will be updated to “Pending declaration”.
  - An email will be sent to all Qualified Persons to inform them to make their declarations (see step 6).
  - Project Coordinators / Assistants can track the declarations by viewing the status of the individual sections.
- Note:** If revisions are needed, the project coordinator can click on the “Revert submission to draft” button to return the submission to draft status for necessary edits.

The screenshot displays the 'Planning parameters' section of a submission. On the left, a sidebar contains navigation items: 'Demolition information', 'Planning parameters' (selected), 'Building control', 'Plans', and 'Fee computation'. The main content area is titled 'Planning parameters' and includes a 'Pending declaration' status badge. An information message states: 'Submission is now pending declaration by the appointed project party. For any edits, please contact the submission coordinator to revert submission to draft.' Below this, the 'Details' section shows a 'Description of works' field with the value 'test'. There is also a section for 'Apply for deviation from the planning requirements (if applicable)' which is currently empty. On the right side, a summary panel shows: 'SUBMISSION: Full demolition application', 'SUBMISSION STAGE: New Submission', 'ASSIGNED PROJECT PARTY: Archie Teng Architect', and 'SUBMISSION SCHEME: -'. At the bottom, there are two buttons: 'Revert to draft' and 'Declare for submission', with the latter highlighted by a red box.

**Submit Declarations (by assigned Project Parties)**

6. As the assigned project party, review all information and proceed by clicking on “Declare for submission”.

### Declaration under Planning Act

I declare that:

- ✓ The information contained in the forms, documents, drawings and plans which are submitted for this application are true and correct in all material particulars
- ✓ The plans do not deviate from the plans submitted to the rest of the regulatory agencies in the joint submission
- ✓ Landowner's consent has been obtained

I declare that:

- ✓ I am the qualified person appointed to make the application for planning permission or conservation permission for the Proposal (as set out in the Proposal Details section of this submission) under section 13 of the Planning Act (Cap. 232) ("the Act");
- ✓ I have prepared the plans of the development; and/or works within conservation area submitted with this application for planning permission or conservation permission in accordance with the duties of a qualified person under section 24A(1) of the Act;
- ✓ I have taken all reasonable steps and exercised due diligence to ensure that the plans were prepared in accordance with:
  - the provisions of the Act;
  - where applicable, any conditions and requirements imposed by the Competent Authority in any outline permission or provisional permission for the development or works, or existing written permission, granted in respect of the land;
  - all relevant guidelines of the Competent Authority; and
  - all other requirements, if any, specified by the Competent Authority in respect of this application.

Except for the deviation(s) which I have sought for waiver(s) for this submission as set out in the preceding section on Planning Parameters; and the deviation(s) which I have already obtained the approval in writing of the Competent Authority prior to this submission.

I acknowledge that the information (including details on the applicant's name and address) will be used in official correspondence, including decision notices (e.g. Written Permissions) issued by the Competent Authority. Where amendments to details contained in the decision notices are required due to wrong information provided in the application, I accept that such changes cannot be made unless a formal amendment application (with payment of the required fees) is submitted to and duly processed by the Competent Authority.

**Actions**

- Assign project party
- [Edit sections and schemes](#)
- [View responses](#)
- [View submission activity](#)
- [Delete submission](#)

### Assign Project Parties (action by Submission Coordinator / Submission Coordinator Assistant)

1. It is necessary to involve all relevant Qualified Persons (QPs) who are part of the project, ensuring they join for the preparation of the Design Gateway (DG).
2. Click on "Assign Project Party" to proceed with this task.

**Note:** Assigning a project party is an action restricted to the submission coordinator or their assistant.

### Assign project party

Select a project party responsible for completing and declaring for each section

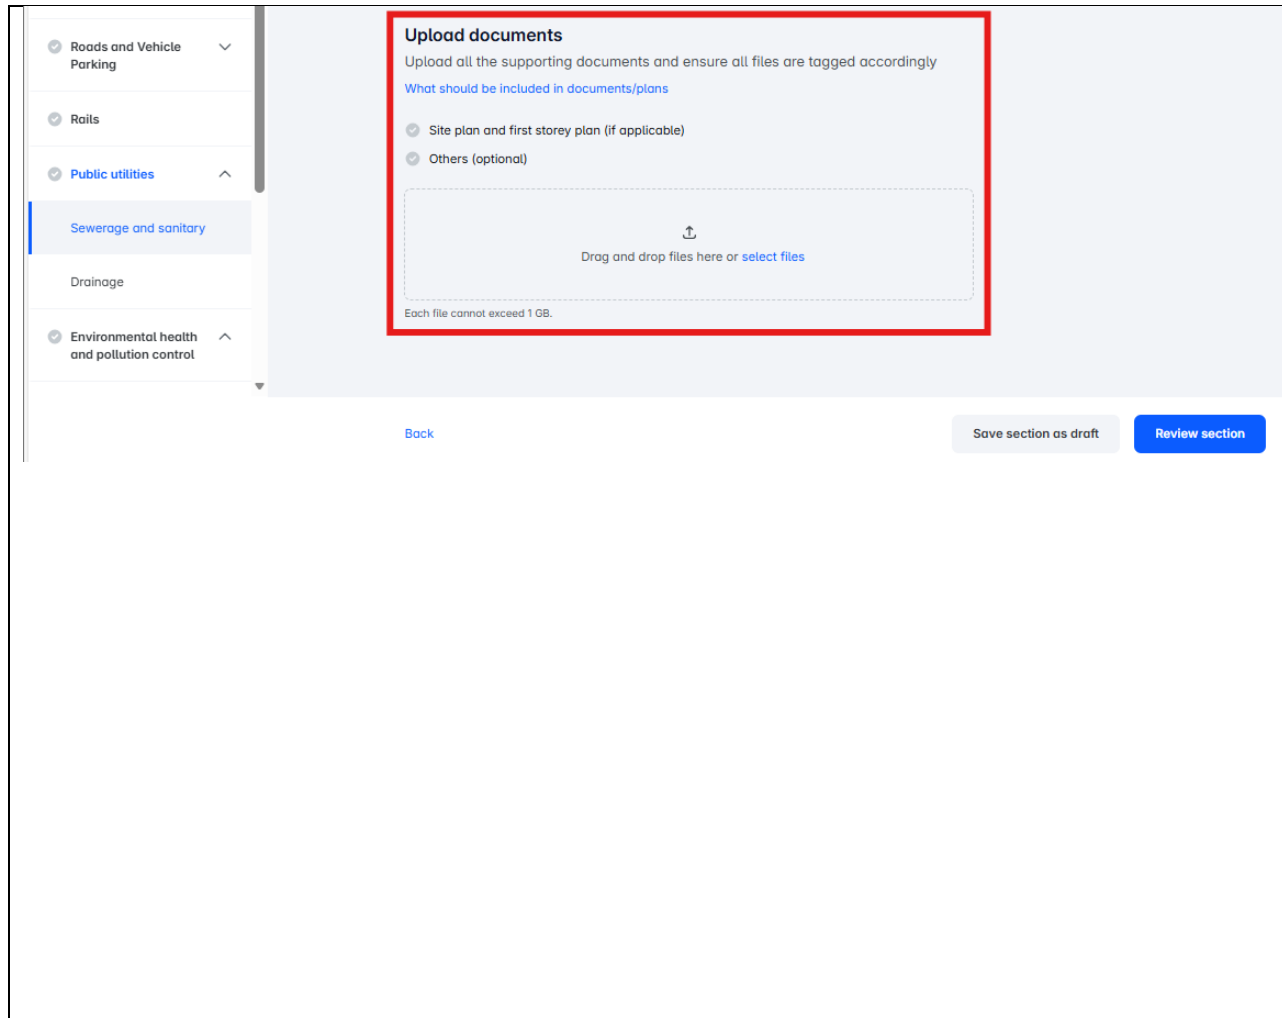

**i** Please note that the assigned project party will be responsible for the respective section of the joint submission. In the event of any changes, assigned project party will be notified of the change(s) made once the page is successfully saved.

SECTION	ASSIGNED PROJECT PARTY
<b>Project information</b> <small>This section can only be prepared and submitted by the submission coordinator</small>	Archie Teng - A0912 (Architect)
<b>Planning parameters</b> URA	Archie Teng - A0912 (Architect)
<b>External greenery</b> NParks	Eugene Chia - E8431 (Professional Engineer (Civil))
<b>Internal greenery</b> NParks	Eugene Chia - E8431 (Professional Engineer (Civil))

[Cancel](#)
Assign

3. In the relevant section, the submission coordinator / assistant can see and appoint suitable parties.
4. If the desired name does not appear, please check that they have been appointed for the relevant responsibility. E.g. an Architect only appointed for NParks' internal greenery responsibility will not have their name appear on URA's planning parameters for selection.
5. After the parties have been assigned, click on "Assign".

12.4 Uploading Files

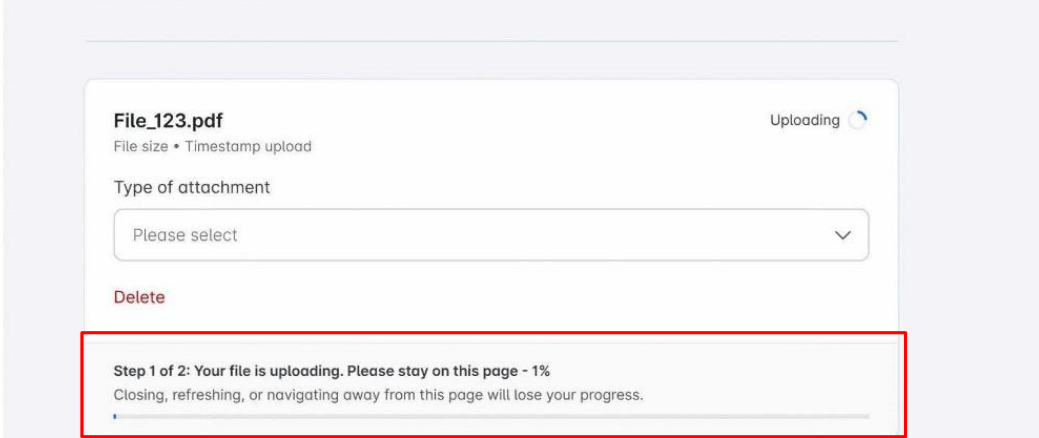

**Uploading documents (action by assigned Project Parties)**

1. Under each section of the submission, the assigned Project Party may upload documents using the digital upload feature.

**Tip:** Required documents will be listed here. Please check carefully if the documents labelled (if applicable) apply to your project. You may click on “What should be included in documents/plans” for more information.

**Note: Do not upload zip files.** Ensure that drawings and plans required for approval are encrypted before uploading. The encryption of files remain status quo through Netrust application.

	<ol style="list-style-type: none"> <li>2. Assigned project parties are to ensure that the file requirements are met before uploading the documents.  <b>Note:</b> The entire submission package should not exceed 10GB.</li> <li>3. Allow some time for virus scanning during document upload.</li> <li>4. More time is required for the uploading of larger files. Users may navigate away while the file continues uploading.</li> </ol>
------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

5. After the file is uploaded, select respective file tag(s). A green tick will indicate that the document has been uploaded as required.

**Tip:** You can select the file tag immediately while waiting for the file scan to be completed, after the file is uploaded.

6. Uploaded files can be downloaded and deleted.

- Greenery provision ^
- External greenery
- Internal greenery
- Roads and Vehicle Parking v
- Rails
- Public utilities ^
- Sewerage and sanitary
- Drainage
- Environmental health and pollution control ^
- Environmental health and pollution control
- Coordinated BIM

### Coordinated BIM

Last saved on - Draft

**Upload coordinated BIM model(s)**  
 If the BIM model file contains more than 1 discipline, please submit the BIM models separately or tag the predominant discipline

- Architectural model
- Civil and Structural model (if applicable)
- Mechanical and Electrical model (if applicable)
- Reference model (if applicable)
- Others (optional)

  
 Drag and drop files here or [select files](#)

Each file cannot exceed 1 GB. Supported file format(s): .ifc, .bcf, .bcfzip

[Back](#)

Save section as draft

SUBMISSION

**Plan application (Design Gateway)**

SUBMISSION STAGE  
New Submission

**Documents**

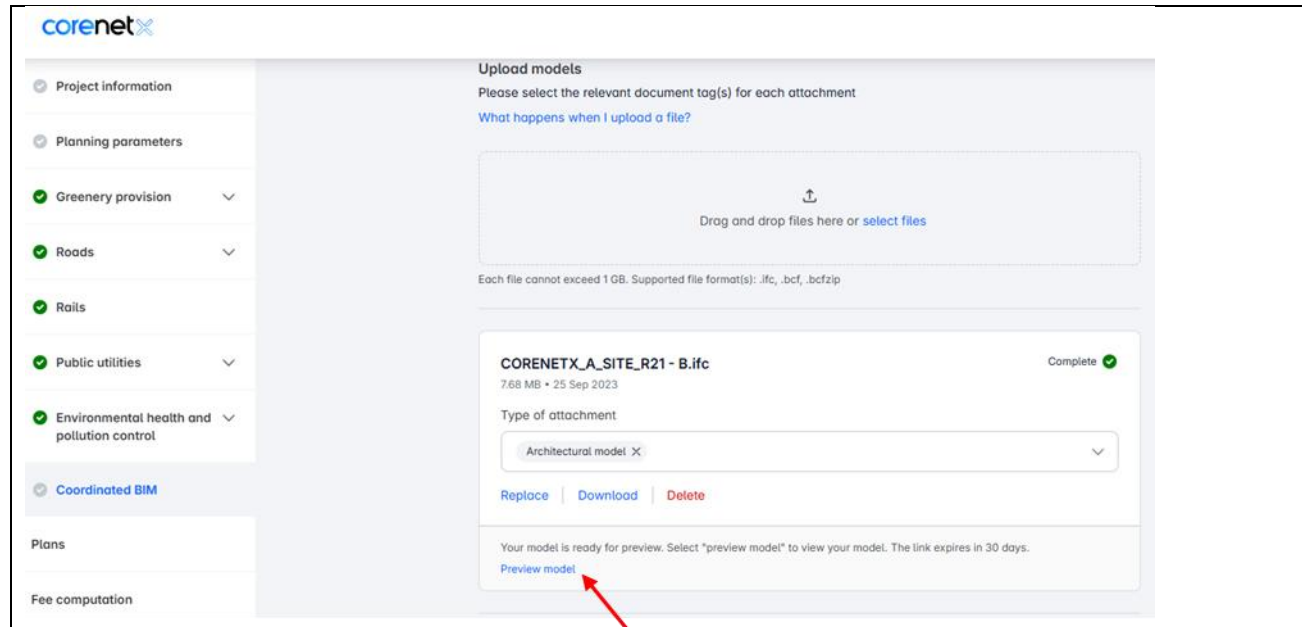

The combined file size of all documents in this submission cannot exceed 10 GB.

14.0 KB of 10 GB used

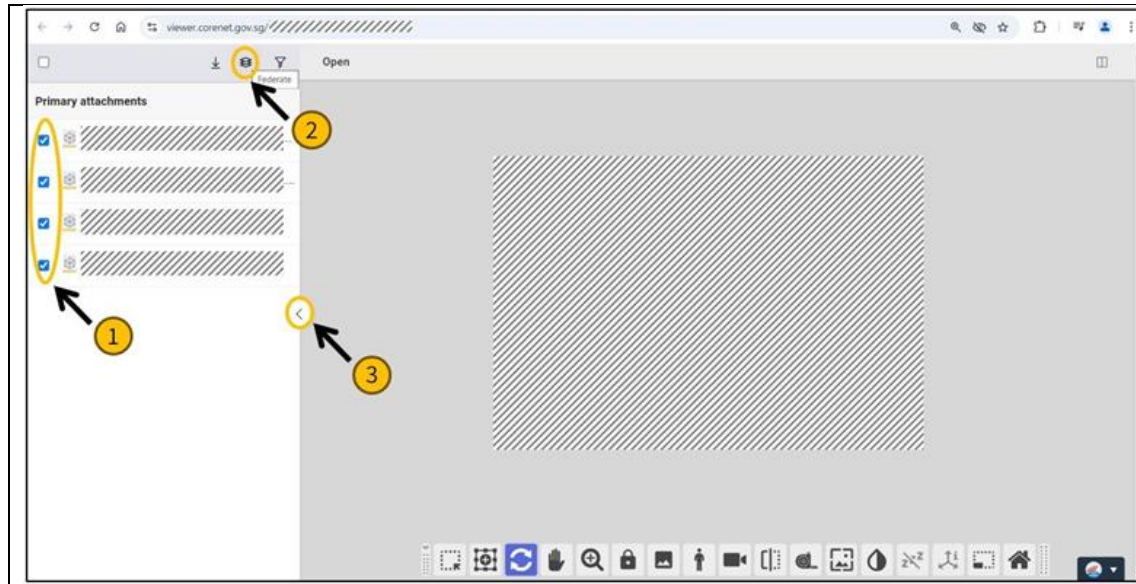

[View files](#)

### Uploading BIM Model (action by assigned Project Parties)

7. All assigned QPs can access the coordinated BIM submission.
8. More than 1 .ifc file for BIM models per discipline can be uploaded. Each model should not exceed 1GB. Files must be encrypted.

9. Once the model has been uploaded, it will be processed for rendering. Users should be able to see a button “Preview model” to open the model in a lightweight BIM viewer, similar to how the model would appear to Processing Officers.

10. The CORENET X lightweight BIM viewer will be launched as a separate webpage.
- Select the models you wish to combine on the left-hand panel.
  - Click on the “Federate” icon
  - You may extend the 3D viewing environment if necessary

12.5 Review Computation of Fees

**Fee computation**  
Review payable plan processing fees with breakdown by agency

TOTAL PAYABLE FEE  
**SGD 400.00**

Cost breakdown by agency

**i** If there are discrepancies on the amounting fees, check that all information have been filled correctly in the 'project information' section. For any changes, please contact the Project Coordinator.

AGENCY  
**Building and Construction Authority (BCA)**

APPLICATION FEE  
Full demolition application 400.00  
Total no. of storey(s) to be demolished: 2 storey

<b>Subtotal</b>	<b>400.00</b>
<b>Total plan fee payable (SGD)</b>	<b>400.00</b>

**Review Fees for Permit Application**

1. Select the “Fee computation” tab.

**Note:** All project members including developers can view the expected plan fee payment. Please note that the fees will be updated as the QPs fill in the form in the various subsections. The final accurate fee will be displayed when all sections have been filled in.

2. Review the required fees and ensure that they are accurate before making payment.

**Note:** If you decide to cancel the submission, you can delete it provided no payment has been made (refer to [Section 12.7](#)). Payment is to be made to each individual agency separately.

12.6 Making Declarations

The screenshot displays the 'Plans' section of the corenetX application. On the left is a sidebar with a list of project sections, each with a green checkmark: Project information, Planning parameters, Greenery provision, Roads, Rails, Public utilities, Environmental health and pollution control, and Coordinated BIM. The main content area is titled 'Plans' and contains an information box stating: 'Plans reflected here are provided by the appointed project parties for the applicable sections when section is ready for review.' Below this are two tables. The first table, 'Coordinated BIM', has columns for FILE TYPE/NAME, UPLOADED ON, APPOINTED PROJECT PARTY, and ACTIONS. It contains one entry: 'Architectural model' uploaded on '5:07pm, 23 September 2024' by '-', with a 'Download' link. The second table, 'Planning parameters', has the same columns but shows 'No plans uploaded'. At the bottom right, a blue button labeled 'Proceed to declaration by QP(s)' is highlighted with a red arrow. Other UI elements include a 'Back' link, a 'Help us improve' button, and a 'Fee computation' section in the sidebar.

**Proceed to Declarations (action by Submission Coordinator / Submission Coordinator Assistant)**

1. A green tick will appear beside completed sections.

**Note:** Submission Coordinator / Assistant will receive notifications when a section is completed as well.

2. After all sections in a form have been completed by all assigned QPs, the Submission Coordinator is to trigger declaration for all QPs by clicking on “Proceed to declaration by QP(s)”.

**Note:** While assigned project parties can prepare their respective sections concurrently, they are not allowed to declare for their respective sections until all inputs are completed.

### View submission timeline

Last updated on 5:09pm, 23 September 2024

**Pending declaration by appointed project party(s)**  
 23 September 2024

Submission details are reviewed and locked. Declaration forms are sent to all appointed project party(s). All declaration(s) must be in place before submission can be paid.

- The guest can click "Make payment" for the item that he/she wishes to make payment for.

13.9 Viewing Payment Receipts

Once payment is successful, you should receive an email and the link to download payment receipt in the email.

To access past payment receipts on the Submission Portal, you can access it in two ways.

 <p>The screenshot shows a dashboard with several cards: 'Submission workspace', 'Project members', 'Member appointments', 'Make payment' (highlighted with a red box), 'Site inspection booking', and 'Model Checker (Beta)'.</p>	<p><b>Method 1: From Project Overview page</b></p> <ol style="list-style-type: none"> <li>1. From the Project Overview page, select “Make payment”</li> </ol>
 <p>The screenshot shows the 'Payments' page for project AA0002-A0885-2026. It displays project reference, title, and a 'Quick links' section with 'View past receipts' (highlighted with a red box) and 'Pending payment by others' buttons.</p>	<ol style="list-style-type: none"> <li>2. Click view past receipts</li> </ol>

3. All past payments made for the project should appear here.
4. Click on “**Receipt**” to download the receipt

**Method 2: From Home Page**

1. Open the navigation panel on the left and click on “**My payments**”

### My payments

Search and make payment for a submission.

#### Make payment

This portal currently only supports payments for:

- CORENET X submissions
- BCA payments for the following submissions
  - Waiver application
  - Design score submission (Existing buildings)
  - Temporary building permit
  - Express TOP application/inspection

Example: ES20021201-12345 or TS20130201-12345

3. After clicking "Confirm," the system will create a resubmission, retaining all details from the previous submission.

4. Click "Edit" to proceed.

5. If a written direction has been issued for a specific section, the tick beside that section will be greyed out. That section is returned to draft state for assigned project parties to modify and edit.
6. The assigned project parties for the sections requiring revisions may modify information where necessary, change submission schemes or update files.
7. If there are updates to the parameters affecting plan fees, this is automatically trigger a top up of fees, which will be reflected in the “Fee computation” section when the form sections are completed.
8. **Note:** All files from previous submissions will be repopulated.

## 15.4 Amending uploaded files

testfile.docx ✓  
13.7B KB • 1 Jan 2026

Type of attachment

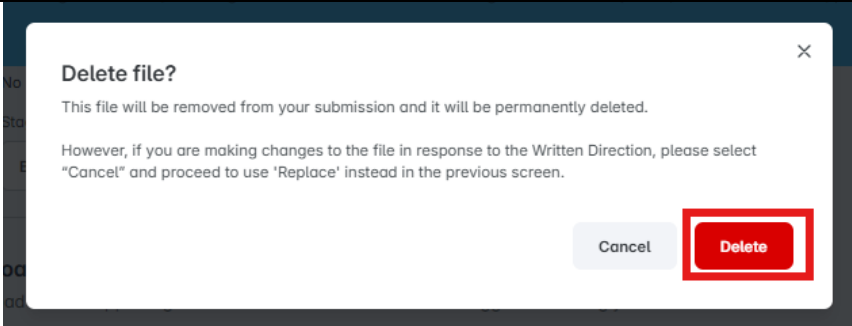

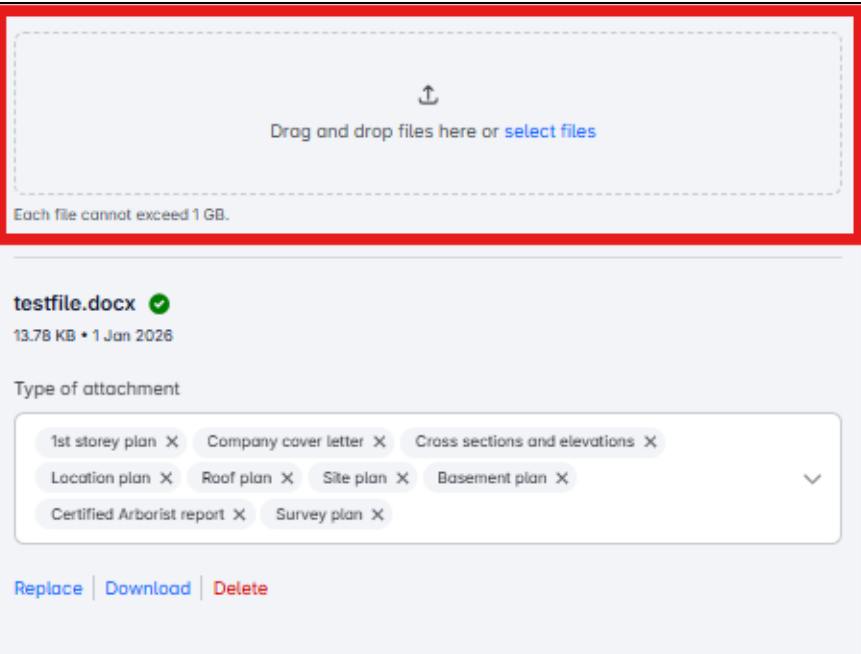

1st storey plan X Company cover letter X Cross sections and elevations X  
Location plan X Roof plan X Site plan X Basement plan X  
Certified Arborist report X Survey plan X

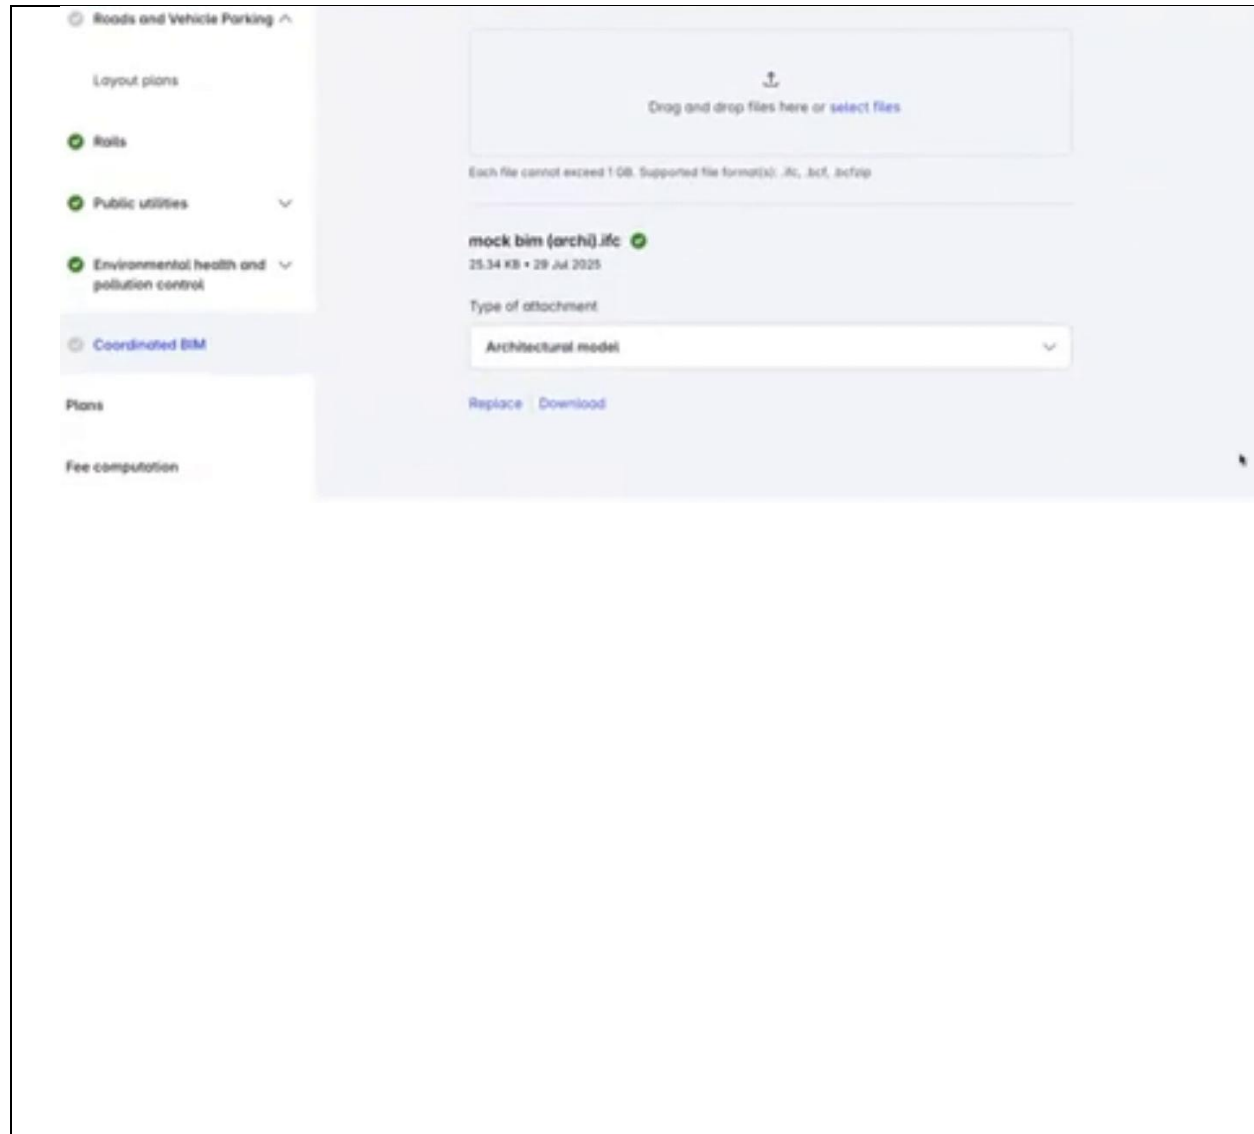

Replace | Download | Delete

Back Save section as draft Review section

**Amending uploaded documents (action by assigned Project Parties)**

1. In the respective section, the assigned Project Parties can “replace” or “delete” the files that were earlier submitted.
2. If a file has been revised to address the agency’s comment for resubmission, replace the old file by clicking “Replace”. **This action allows changes to be tracked between the initial and resubmitted file.**  
  
**Note:** Do not use delete unless the file must be omitted and is irrelevant to the submission. Otherwise, revised drawings should use “Replace”.
3. **Ensure that you “save” the section after replacing the file.** File scanning may take some time, but you may navigate to the coordinated

	<p>BIM section while waiting for the file to upload.</p>
	<p>4. If a file is no longer needed, click "Delete File."</p> <p><b>Note:</b> Keep in mind that deleting a file removes it <u>permanently</u>. Only delete if necessary.</p>
	<p>5. To add a new file, follow the same steps in the initial submission. It will appear as a new entry.</p>

**Amending uploaded BIM model (action by assigned Project Parties)**

6. In the coordinated BIM section, your draft will be returned during resubmission.
7. Select and “replace” the affected section if any amendments to the BIM model require redeclaration by the assigned project party.
8. You will be prompted to select the agency’s section that has been affected by the revisions made in this replacement model e.g. “planning parameters”
9. .bcf file is acceptable, if the project team has replied to the WD comments through the .bcf file.
10. All files are to be encrypted by the relevant QPs

	<p>11. Once your file is updated, click “review section”.</p> <p>12. If no changes are necessary, click on “review section”.</p>
--	----------------------------------------------------------------------------------------------------------------------------------

## 15.5 Making Declarations

	<p><b>Proceed to declaration (action by Submission Coordinator / Submission Coordinator Assistant)</b></p> <ol style="list-style-type: none"> <li>1. Upon completing the resubmission, the submission coordinator may click on “proceed to declaration by QP(s)”.</li> </ol> <p><b>Note:</b> Only sections that have been edited and resubmitted require re-declarations.</p>
--	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

## 16. Making Amendments after Submission Clearance

### 16.1 Initiating Amendment

My projects > Project overview (AA0912-A0392-2025) > Submission workspace

### Submission workspace

Joint space for project members to manage and prepare project submissions

#### Gateway submission process

Guided process to obtain the required agency clearances for your project

- ✔ Design gateway
- Piling gateway (optional)
- ✔ Construction gateway
- ⋮ Completion  
Obtain TOP/CSC approvals from relevant regulatory agencies before requesting for BCA's final clearance  
[View TOP/CSC requirements](#)

#### All submissions

Create submission

Create and manage your submissions

Search by submission or ES no. Filter

Filter by agency, status etc
>

SUBMISSION	STATUS	AGENCY	LAST UPDATED	ACTIONS
Plan application (Construction Gateway) -	<b>New Submission</b> EX20260101-50004-CG01R00 <span style="background-color: #28a745; color: white; padding: 2px 5px; border-radius: 3px;">Clearance</span>	All	1 Jan 2026	<span style="border: 2px solid red; padding: 2px 5px; color: #007bff;">Amend</span> <a href="#">View</a>
Plan application (Design Gateway) -	<b>Resubmission</b> EX20260101-50003-DG01R01 <span style="background-color: #28a745; color: white; padding: 2px 5px; border-radius: 3px;">Clearance</span>	All	1 Jan 2026	<a href="#">View</a>

1. Once the submission is approved and eligible for an amendment, the submission coordinator gains access to apply for an amendment.
2. Go to the submission workspace and click “Amend” on the submission to be amended.

**Note:** An amendment can generally be made for all submissions except the Design Gateway submission.

My projects > Project overview (AA0912-A0392-2025) > Submission workspace > View submission timeline

### Create submission

Please read the below instructions before proceeding.

Submission details	
Submission	Noise assessment
Agency	National Environment Agency (NEA)

### Instructions

This submission requires the relevant appointed project party(s) to prepare and submit the application to the selected regulatory agency.

The coordinating QP for this submission may fill in the relevant sections and provide declarations to complete the submission.

Please note applications can only be submitted upon full payment of plan processing fees, where relevant.

[← Back](#) [Cancel](#) [Create](#)

8. Review submission details and click “Create”.

**Input Permit Details (action by QP (Supervision), i.e. PE (Civil) appointed for supervision of structural works)**

11. QP (Supervision) is to input the permit details.

12. Once all fields have been filled in, click on “review section”.

Back
Save section as draft
Review section

**Provide inputs for Supervision of Structural Works (action by QP (Supervision))**

- 13. QP (Supervision) is to provide inputs for this section.
- 14. QP (Supervision) shall indicate the Resident Engineer (RE) and Resident Technical Officer (RTO) involved for the project into the project in the permit. Their names will appear in the drop-down list for selection when they are successfully added into the project.
- 15. The QP (Supervision) is responsible for adding the RE and RTO involved for the project into the project. Like every other project member, the REs and RTOs are required to login to the system and acknowledge their addition to the project. Following this, the QP (supervision) may then see their names appear in the permit form for selection.

	<p>16. If Geotechnical works are involved as per indicated during the creation of this form, “Supervision of Geotechnical Building works” section will also be generated. PE (Geotechnical) appointed for supervision of the works can access this section to make their inputs.</p> <p>17. Once all fields have been filled in, click on “review section”.</p> <p><b>Tip:</b> Refer to “does this project require RE/RTO?” to see the requirements.</p>
--	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

**Provide inputs for Manpower, Constructability and Specialist Building Works (action by Building Technical Controller)**

18. Technical Controller (TC) is to provide inputs for this section.

19. If there are specialist building works involved, the TC shall select the appointed licensed specialist builder (LSB) accordingly involved in the works under this permit.

Contact the PC to add the LSB and complete the appointment process. Their names will appear in the list thereafter.

20. Once all fields have been filled in, click on “Review section”.

----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

### Create submission

Please read the below instructions before proceeding.

Submission details	
Agency category	Fire Safety
Submission	Waiver/non-compliance
Agency	Singapore Civil Defence Force (SCDF)

#### Instructions

This application for waiver/non-compliance will be made to the single selected agency pertaining to their specific regulations, requirements and conditions.

Application can be made either:

- Prior to a formal plan application to the agency (e.g to seek specific waivers upfront), or
- In response to a condition/guideline imposed by the agency (e.g as part of Written Direction)

To ensure a smooth process, please provide adequate details, clear descriptions and annotations. Include information such as detailed plans and drawings, photos and any other supporting documents or materials necessary to illustrate and justify the request for the agency's review.

Please note that the application will only be successfully accepted after payment (if applicable) is made.

The outcome of the application is final once decided by the respective agency's panel. Appeal for the same waiver with the same design will not be accepted.

← Back
Cancel Create

8. Review submission details and click "Create".
9. An email will be sent to the assigned Qualified Person(s) to inform them to prepare the waiver submission.

0-0 of 0 results					

- Go to the “Manage Site Inspection Booking” page.
- Click on “Book Inspection”. Proceed to book your preferred slot.

**Note:** Currently, only booking of site inspections by the Building and Construction Authority (BCA) are supported in CORENET X Submission Portal.

Other agencies’ site inspection booking will be progressively introduced and will currently remain status quo, where project teams can approach the agency directly to make the bookings.

20.2 Checking Required Technical Clearances

### View TOP/CSC requirements

Please ensure that the below clearances are obtained before applying for a TOP or CSC with BCA.

Site inspection **Technical clearance** Certificate of Supervision and As-Built Completion of Structural works

**i** Please obtain the necessary technical clearances from the below agencies. If the project is subject to approval by BCA under the Building Control Act, please note that these technical clearances are necessary in order for BCA to issue Temporary Building Permit (TOP) or Certificate of Statutory Completion (CSC) for the project.

AGENCY	TOP CLEARANCE STATUS	CSC CLEARANCE STATUS	ACTIONS
Planning parameters URA	Direct technical clearance (CSC) is required	Not submitted	<a href="#">View checklist</a>
Greenery provision and tree conservation NParks	Not required	Not submitted	<a href="#">View checklist</a>
Roads LTA	Not required	Not submitted	<a href="#">View checklist</a>
Rails LTA	Not required	Not applicable	<a href="#">View checklist</a>
Vehicle Parking with/without Electric Vehicles (EV) charging provisions LTA	Not required	Not applicable	<a href="#">View checklist</a>
Drainage PUB	Not submitted	Not submitted	<a href="#">View checklist</a>

9. If you are uncertain which technical clearances are required from agencies based on submitted plans, you may go to the “Submission Workspace” and click on “View TOP/CSC requirements” under the submission milestone dashboard.

10. Click on the “Technical Clearance” tab. This section informs you whether your latest approved construction gateway requires TOP/CSC clearances from each agency.

**Tip:** Click on “view checklist” to understand each agency’s requirements for technical clearance.

11. Obtain the required technical clearances by following the steps in [Section 20.3](#).

20.3 Obtaining Required Technical Clearances

<div style="border: 1px solid #ccc; padding: 10px;"> <h3>Select submission</h3> <p>Only applicable submissions will be made available for selection</p> <div style="border: 2px solid red; padding: 5px; margin-bottom: 10px;"> <p>Submission category</p> <p>Technical clearances (certificate of supervision etc.)</p> </div> <hr/> <p>Agency</p> <p>Urban Redevelopment Authority (URA)</p> <hr/> <p>Submission</p> <p>Application for technical clearance (CSC)</p> <hr/> <p>Agency category</p> <p>Planning parameters</p> <hr/> <p>Submission coordinator</p> <p>ARCHIE TENG - A0912 (Architect)</p> <div style="text-align: right; margin-top: 10px;"> <span>Cancel</span> <span style="background-color: #007bff; color: white; padding: 2px 10px; border-radius: 4px;">Next</span> </div> </div>	<ol style="list-style-type: none"> <li>1. Go to the Submission Workspace and click on “Create Submission”.</li> <li>2. Select “Technical clearances” under the Submission category.</li> <li>3. Choose the appropriate forms to be submitted for technical clearance.</li> <li>4. Click “Next” and complete the guided submission to obtain the relevant technical clearance.</li> </ol>

Dear Sir/Madam

**BUILDING CONTROL ACT**  
[Section 5/Section 5A]  
**NOTICE OF APPROVAL**  
(Regulation 14(1) of the Building Control Regulations 2003)

**PROJECT REFERENCE NUMBER:** [REDACTED]  
**PROJECT TITLE:** [REDACTED]

1 The above structural plans are hereby approved subject to the provisions of the Building Control Act (Cap. 29) and Building Control Regulations, and the following term and condition of approval.

a) there is a valid planning permission.

2 If Household and/or Storey Shelter structural plans ("Shelter Plans") were submitted together with the above structural plans, please note that the approval granted pursuant to this Notice of Approval shall also be an approval of such Shelter Plans. Should there be any amendments to the approved Shelter Plans which materially affect the structural elements of the shelter, the qualified person is required to submit the amended Shelter Plans for our approval before construction.

3 Please note that you are required, under section 6 of the Building Control Act, to apply for and obtain the permit to commence work before carrying out structural works. If a permit has already been issued for this project, there is no need to apply for the permit again as long as the parties to the permit (i.e. the developer, the qualified persons and the builder) remain the same.
